

Quality Policy

It is the commitment of Sunseeker Windows Ltd. to maintain a quality system designed to meet the requirements of ISO9001:2008 Model for Quality Assurance for the development, production, installation and servicing of PVCu Windows and Doors to BS7412/7950 and WER A,B+C standards.

In accordance with this, the company's objectives are to :

- Monitor its continuing effectiveness in satisfying the requirements of Sunseeker customers and their statutory & legal requirements.
- Continually strive to improve our products, processes and quality systems to ensure Sunseeker remain one of the leading suppliers of PVCu products.
- Develop and maintain quality consciousness amongst all management, staff and operatives through a Planned Quality Management working environment.
- Work closely with our customers, suppliers and colleagues to build effective partnerships.
- Strive for highest standards of customer service.
- Take into account local issues, when implementing its environmental policies and objectives.

The scope of this Quality Policy and these objectives extends to all activities undertaken by Sunseeker. Our Management reviews assist in implementing company objectives to ensure that targets are practicable and that adequate resources are allocated to achieve them. This policy applies to all sites, personnel and operations, and information is provided to employees via notice boards and to customers when requested.
